Norman-Nauman Family Reunion.

The tenth reunion of the Norman and Nauman families and collaterals, at the home of Isaac Griffith, is past. The attendance was not as large as at some former reunions, but it was from widely separated points, and the decision to hold a reunion next year was unanimous. It will be held the last Wednesday in August, in Missouri, at some point yet to be determined.

Prior reunions have been held in four states—Virginia, Ohio, Iowa and Missouri.

Those present Wednesday were: Mr. and Mrs. Dave Nauman, West Liberty, Iowa; Marie, May and Robert Nauman, Craig; Mary Katherine Woodworth, Philadelphia; J. C. Nauman and wife, Mound City; Ed. S. Comer, Mound City; Charles Hammer and wife, Mound City; Haw Kunkel, Craig; Amos Nauman and family; Geo. Nauman, Stella, Clyde and Carl Nauman, Mound City; J. Perry Nauman and wife, Greeley, Colo.; J. Laura Catron Dead.

A telegram was received early last Tuesday morning from St. Joseph announcing the death at that place of Laura Catron, the evening before. She was a sister of W. L. Catron and C. C. Catron, of this place, and they went down to St. Joseph on the morning train Tuesday and brought the remains here on the morning train Wednesday. Funeral services were conducted at the home of W. L. Catron, by Brother Conner, of Craig, at 10 a. m., and the remains were laid away in Mt. Hope cemetery, Wednesday. Laura Catron was born near Bigelow, February 6, 1857, and leaves two brothers, W. L. and C. C. Catron, who live here; Dave Catron, of Howe, Id., and one sister, Mrs. Dona Muir, of Terry, S. D.—Bigelow correspondent, Mound City News-Jeffersonian, August 20, 1914.

SHOCKING ACCIDENT.

Left Arm of Galen Mills, Son of Charles Mills, of Forest City, Caught in Fly-Wheel and Taken Off Just Above Elbow.

An unfortunate and horrible accident befell little Galen Mills, aged 13 years, son of Charles Mills, a carpenter, of Forest City, last Saturday afternoon, August 22, 1914, in which the little fellow had his left arm torn off, just above the elbow, by getting it caught in the fly-wheel of a gasoline engine.

He was helping P. A. Landers in his feed mill, and it seems was alone when the accident occurred. It appeared that he had climbed up on an empty nail keg, in order to get a wrench or something from a shelf on the wall, when the keg tipped and threw him off into the fly-wheel of an engine, the left arm going in between the spokes of the wheel, whirling him around and around until the arm was torn off just above the elbow, cutting or breaking the bone like it had been cut with a knife, and just above this a few inches was another break, near the shoulder, very similar to the one below—this bone was also broken square off, a portion of the bone being forced under the ribs, near the armpit.

The poor little fellow, all alone, must have suffered untold agony, while the engine was making rapid revolutions, and all of this time was thrashing and pounding the frail little body here and there and against everything until it succeeded in tearing the arm off. Beside the arm being torn off, he was beaten and bruised nearly to a pulp, and never lost consciousness, and at the end of this terrible ordeal, he staggered out of the building, when he was at once noticed, and willing hands immediately took charge of him, doctors were called, and he was made as comfortable as possible.

Monday afternoon, of this week, Dr. F. E. Bullock, of Forest City, assisted by Dr. McClanahan, also of Forest City, and Dr. J. L. Hogan, of Oregon, performed an operation, removing the remainder of the arm at the shoulder. He stood the operation well, and is resting very comfortably at this writing, and hopes are entertained for a recovery. The sincere sympathy of everyone goes out to Mr. and Mrs. Mills in their affliction, and all pray for a complete recovery.

Many Thanks.

Dr. T. A. Clagett, pastor of the Presbyterian church, this city, has the thanks of the Junior of THE SEXTON, for a nice ride to Maitland and return. Thursday of last week, in his Saxon runabout car, and believe me, he took us up there and back in first-class style, and extra good time, considering the extreme heat and dust. The time going and returning was one hour, each way, and then the little scamp had to be held in. It certainly is a puller, handy to get in and out, large and roomy, and much less than a gallon of gasoline was used for the round trip.

Presbyterian Church Notes.

There will be no church service next Sunday morning, as the pastor is away on a visit to Appleton City, Mo., at Mrs. Clagett's home.

Sunday school at 9:45. Let every member try to be present next Sunday.

The Airdome meeting was well attended last Sunday night. Mr. Snodgrass, of the Christian church, of Savannah, gave a good sermon on "What Think Ye of Christ?" and Mrs. Snodgrass sang very sweetly "Rock of Ages."

T. A. CLAGETT,
Pastor.

The Saxon an Economical Car.

Last Friday Mr. Clagett took Hugh Harsha on his mail route in his Saxon and made the distance of 24 miles on just one-half gallon of gasoline at a cost of 5 cents, or 1 of a cent a mile. Mr. Harsha says his Pierce-Arrow motor cycle took 3 quarts of gasoline for a trip. This is certainly cheap transportation—much cheaper than feeding a horse.

ATTENTION! COMRADES.

Members of Meyer Post, G. A. R., will remember their next regular meeting will be held Saturday, August 29th, 1914, at the home of A. J. Jamison. Let there be a full attendance. Comrades B. F. Morgan, T. C. Dungan and Daniel Zachman are detailed to look after the necessary transportation.

G. W. CUMMINS, Commander.

Silo School.

The Silo school, which is a new feature, is attracting a lot of attention outside of Missouri. This is the first Silo school that has ever been held in connection with the State Fair and promises to be wonderfully successful. The object of the school is not to instruct as to the superiority of one silo over another but to instruct as to the value of silos and methods of securing best results with them. The farmers will have a varied line to select from for all of the leading Silo manufacturers will have exhibits on the grounds. There will be wooden, brick, tile, steel, concrete and other kinds of silos exhibited. It is planned to make the Silo school one of the strong features of the 1914 Fair.
